This community health fair is part of a legacy that spans over **30 years**, saving lives through early detection, education, and access to essential health services. The *"Decide to be Healthy"* program was born from the commitment to serve underserved Hispanic communities with dignity and compassion. It has become a model of community outreach, prevention, and empowerment.

The **Hispanic Health Professionals Association, Inc. NY (AHPSI)** has been the driving force behind this initiative, organizing these fairs consistently for over three decades, not only in New York, New Jersey, and Pennsylvania, but also extending their impact to communities in the **Dominican Republic**. Under the leadership of **Dr. Aritmedes Restituyo**, AHPSI continues to reach families across borders, bringing hope and health to those who need it most.

Attached to this email, please find the **registration form** and **event flyer** for your reference and confirmation.

We look forward to your participation and continued partnership.

Warm regards,

**Dr. Aritmedes Restituyo**  
President, AHPSI
